Subject: **Calleguas Creek IWPP Phase II- Watershed Management Study: Survey Sheets**

Dear Stakeholders:

Ventura County Watershed Protection District held Stakeholder Meeting No. 4 on January 13, 2009. The workshop was well attended and we received many useful comments and some very good ideas from the workshop participants. It is our hope that the final outcome of the study will benefit the residents of the whole watershed.

On January 30, 2009, we mailed out a letter with survey information and study comments. Please return your survey information and study comments before February 28, 2009. (The original dead line was set for February 15, 2009, we have extended the comment periods an additional two weeks). We have been informed that some stakeholders did not receive the letter, VCWPD decided to extend the deadline up to February 28, 2009 to accommodate stakeholders request for more time to provide comments.)

You can find more information on the study from the following web site:
