To All Interested Parties

Requests for Qualifications:

Calleguas Creek Watershed Total Maximum Daily Load Monitoring Program Assistance

The public agencies and private interests responsible for implementing Federal Clean Water Act water quality improvement programs on the Calleguas Creek watershed (Ventura County, California) have designated Calleguas Municipal Water District as their representative to solicit Requests for Qualifications to implement water quality sampling and analyses required under adopted Total Maximum Daily Load (TMDL) regulations.

Interested parties may review all Requests for Qualifications at the Calleguas Creek Management Plan website, www.calleguascreek.org. Upon selection, successful bidders will work as subconsultants to Larry Walker Associates, the consultant coordinating the responsible parties' TMDL implementation.

We appreciate your interest. With your help, we hope to provide a national model for improving water quality and moving toward a sustainable future for local water resource management.

Sincerely,

Henry Graumlich
Manager of Special Projects
Calleguas Municipal Water District
Fiscal Agent to MOA TMDL Parties
