To All Interested Parties

*Requests for Qualifications:  
Calleguas Creek Watershed  
Total Maximum Daily Load  
Monitoring Program Assistance*

ACTING AS FISCAL AGENT TO THE  
PARTIES OF THE TMDL MOA  
CALLEGUAS CREEK WATERSHED  
MANAGEMENT PLAN

2100 Olsen Road,  
Thousand Oaks, CA 91360-6800

The public agencies and private interests responsible for implementing Federal Clean Water Act water quality improvement programs on the Calleguas Creek watershed (Ventura County, California) have designated Calleguas Municipal Water District as their representative to solicit Requests for Qualifications to implement water quality analyses required under adopted Total Maximum Daily Load (TMDL) regulations.

Interested parties may review the Request for Qualifications at the Calleguas Creek Management Plan website, [www.calleguascreek.org](http://www.calleguascreek.org). Upon selection, successful bidders will work as subconsultants to Larry Walker Associates, the consultant coordinating the responsible parties' TMDL implementation.

We appreciate your interest. With your help, we hope to provide a national model for improving water quality and moving toward a sustainable future for local water resource management.

Sincerely,

A handwritten signature in blue ink that reads "Henry Graumlich".

Henry Graumlich  
Manager of Special Projects  
Calleguas Municipal Water District  
Fiscal Agent to MOA TMDL Parties
